

2 Year Sire Stag Sale

**Wednesday
13th December 2023 at
1.30pm
37 Pukenua Road
(1 km North of Taihape)**

Introduction

Many things in the world are in disarray just now but the venison schedule continues to shine through. Much like the All Blacks shining through after adversity despite the TMO.

Venison always peaks in Sept/Oct - not convenient for us but necessary to meet a European market demanding our world class product. To best meet this demand two significant factors have to align.

Firstly we have to have available animals of appropriate weight (60-70 kg cwt), and secondly, we have to have a feed supply profile that can be adjusted given these animals are going to market just when pasture growth takes off. This is complicated of course and there are a variety of solutions. For us it involves the integration of a high component of beef cows in the mix.

The first part - meeting the peak price point in October - is straight forward. We breed deer with a high 12mthBV for growth. This year, as usual, we killed all our cull R1 year stags in early October at 65kg cwt.

We are very fortunate that farmed venison is a naturally branded, in demand product, with virtually no global competition. In distinct contrast with our lamb and beef products competing with the likes of Australia and Brazil. A truly solid reason to stick to venison in the long term.

While our major emphasis is on growth we still aim to produce a compact animal with a high maternal performance. To this end we have tried to maintain a 25-45% English/ NZ component in our breeding programme.

This catalogue is once again dominated by our home bred sires. Very pleasing considering we AI over 400 hinds annually to outside sires.

The 2 year sires in this catalogue are the cream of the crop from a base of 670 stud hinds, all of which are rigorously selected for temperament as well as performance.

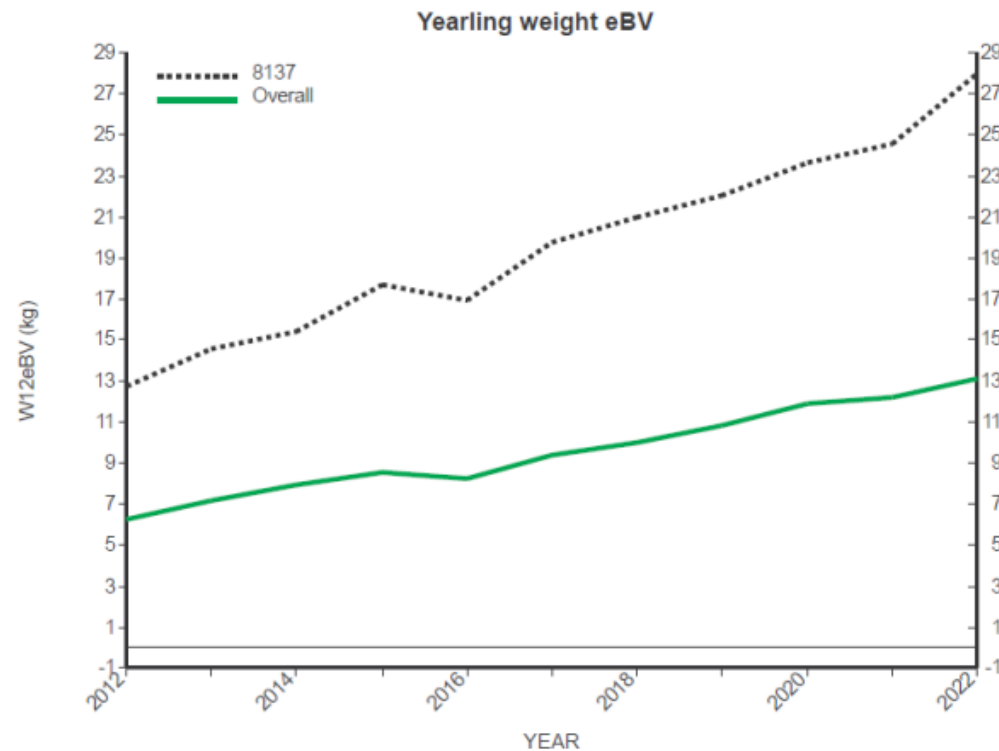

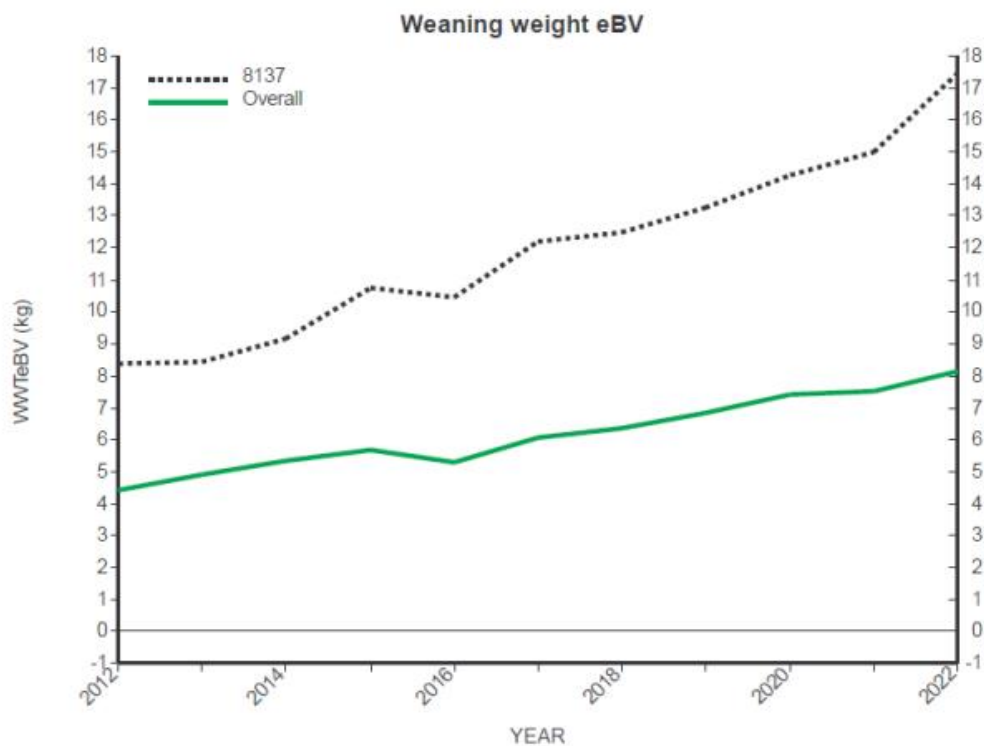

As always you can purchase with confidence as we stand by our product.

Paul & Rae Hughes

Comparative Trend Graphs

These graphs show the rate of genetic progress for the last ten years at Ruapehu Red Deer (Herd 8137, dotted lines). And although the combined red deer herds (green line) are making progress, Ruapehu is well ahead. Approximately 9kg for Weaning Wt and 15kg for Yearling Wt.

Ken Moore

Sale Terms and Conditions

The New Zealand Stock & Station Agent's Association Conditions of Sale and, to the extent deemed relevant by PGG Wrightson Limited (PGW), PGW's Terms of Sale apply to this sale. When proceeds are credited or a purchase is debited to a PGW monthly credit account, then PGW's Monthly Account Terms of Trade (as amended from time to time) apply to the extent deemed relevant by PGW. These terms can be inspected at the registration desk and on the wall in the auction room. The current versions of PGW's Terms of Sale and Monthly Account Terms of Trade are also available online at: www.pggwrightson.co.nz/Our-Company/Terms-and-Conditions or a hardcopy on request.

Rebate for purchasing agents

All intending purchasers must register at the sales office prior to the sale. PGW will pay a purchasing rebate at a negotiated % figure of the purchase price excluding GST, plus GST, to livestock companies & recognised independent livestock agents with a PGW account who have introduced buyers to PGW before the sale and/or accompanied buyers to the sale.

bidr®

This sale will be hosted by bidr® (www.bidr.co.nz) as a HYBRID ON-FARM auction, with on-line bidding and a live-stream available for on-line purchasers. All intending ON-LINE purchasers must register with bidr® using an account held with one of the bidr® partner agencies in advance of the sale date. The bidr® team is available to assist intending purchasers with signing up and registering -please call 0800 TO BIDR (0800 86 2437) or email enquiries@bidr.co.nz for assistance at any point. The agent for the lower North Island is Aimee Flynn 027 282 1710.
